

# Articulation Agreement by Major

Effective during the 2022-2023 Academic Year

To: California State University, Bakersfield  
2022-2023 General Catalog, Semester

From: Contra Costa College  
2022-2023 General Catalog, Semester

## Computer Science

### GENERAL INFORMATION

This articulation agreement displays lower-division course requirements specific to the major. Students should always contact an academic advisor about degree requirements for their baccalaureate major.

#### Helpful Resources

### ABOUT THE MAJOR

Computer Science is a constantly evolving discipline. To quote the Association for Computing Machinery, "Computer Science is not simply concerned with the design of computing devices-nor is it just the art of numerical calculation. Computer Science is concerned with information in much the same sense that Physics is concerned with energy; it is devoted to the representation, storage, manipulation, and presentation of information in an environment permitting automatic information systems."

The Computer Science major at CSUB has three pathways that lead to a B.S. in Computer Science:

- **Traditional Computer Science** program follows the guidelines recommended by the Association for Computing Machinery (ACM) and the Accreditation Board for Engineering and Technology (ABET).
- **Computer Information Systems concentration** is intended for training application programmers or for those who wish to apply computer science in another discipline.
- **Information Security concentration** is intended for students who wish to pursue a career in information assurance and security, either with government agencies or with industry. Students in the three pathways will take different advanced courses of their choice. A Computer Science minor is also offered.

The Computer and Electrical Engineering and Computer Science Department moved into a new building in the Fall of 2008. The department administers its own local area network which includes multiple Unix/Linux servers, two software programming labs, a walk-in lab/tutoring center, one advanced workstation lab, an isolated network lab, an AI/visualization lab, a DSP/communications lab, one digital electronics hardware lab, a power systems/electronics lab, and a robotics/control systems lab. There is also a departmental library/major study room available to students.

An important goal of the department is to enable students to work much more closely with faculty than they would be able to at larger universities. A detailed description of student learning goals and objectives can be found at <https://www.cs.csub.edu/abet/>.

For additional information, visit the [Department of Computer & Electrical Engineering and Computer Science](#).

### IMPORTANT NOTE

A modification to the standard GE program has been approved that allows the possibility of satisfying some GE requirements through the major. Please see the Computer Science General Education Courses and Notes in the **CSUB catalog** for further information.

### MAJOR IN COMPUTER SCIENCE

#### All courses in this section are required

**CMPS 2010** - Programming I: Programming Fundamentals (4.00) ← No Course Articulated

**CMPS 2020** - Programming II: Data Structures and Algorithms (4.00) ← No Course Articulated

**CMPS 2120** - Discrete Structures (4.00) ← No Course Articulated

**CMPS 2240** - Computer Architecture I: Assembly Language Programming (4.00) ← No Course Articulated

**MATH 2310** - Single Variable Calculus I for Engineers (4.00) ← No Course Articulated

--- Or ---

**MATH 2510** - Single Variable Calculus I (4.00) ← **MATH 190** - Analytic Geometry and Calculus I (5.00)

<b>MATH 2320</b> - Single Variable Calculus II for Engineers (4.00)	←	No Course Articulated
--- Or ---		
<b>MATH 2520</b> - Single Variable Calculus II (4.00)	←	<b>MATH 191</b> - Analytic Geometry and Calculus II (4.00)
<b>PHYS 2210</b> - Calculus-Based Physics I (4.00)	←	<b>PHYS 130</b> - General Physics I (4.00)
<b>PHYS 2220</b> - Calculus-Based Physics II (4.00)	←	<b>PHYS 230</b> - General Physics II (4.00)
<b>Select 1 Course(s) from the following</b>		
<b>BIOL 1009</b> - Perspectives in Biology (3.00)	←	No Course Articulated
--- Or ---		
<b>BIOL 1039</b> - Principles of Ecology (3.00)	←	No Course Articulated
--- Or ---		
<b>BIOL 2010</b> - Introductory Biology - Cells (4.00)	←	<b>BIOSC 147</b> - Cell and Molecular Biology (4.00) • <i>Course cannot be dual counted</i>
--- Or ---		
<b>CHEM 1000</b> - Foundations of Chemistry (3.00)	←	<b>CHEM 120</b> - General College Chemistry I (5.00) • <i>Course cannot be dual counted</i>
--- Or ---		
<b>GEOL 2010</b> - Physical Geology (4.00)	←	No Course Articulated
--- Or ---		
<b>MATH 2200</b> - Introduction to Statistical Concepts and Methods (4.00)	←	<b>MATH 164</b> - Introduction to Probability and Statistics (4.00)
--- Or ---		
<b>MATH 2533</b> - Multivariable and Vector Calculus (4.00)	←	<b>MATH 290</b> - Analytic Geometry and Calculus III (5.00)
--- Or ---		
<b>MATH 2540</b> - Ordinary Differential Equations (4.00)	←	<b>MATH 292</b> - Introduction to Differential Equations (4.00)
--- Or ---		
<b>MATH 2610</b> - Linear Algebra I (4.00)	←	<b>MATH 200</b> - Introduction to Linear Algebra (4.00)
--- Or ---		
<b>PHYS 2230</b> - Calculus-Based Physics III (4.00)	←	<b>PHYS 231</b> - General Physics III (4.00)
--- Or ---		
<b>SCI 1409</b> - Introduction to Scientific Thinking (3.00)	←	No Course Articulated

## CONCENTRATION IN COMPUTER INFORMATION SYSTEMS

### All courses in this section are required

<b>CMPS 2010</b> - Programming I: Programming Fundamentals (4.00)	←	No Course Articulated
<b>CMPS 2020</b> - Programming II: Data Structures and Algorithms (4.00)	←	No Course Articulated
<b>CMPS 2120</b> - Discrete Structures (4.00)	←	No Course Articulated
<b>CMPS 2680</b> - Web Programming I (3.00)	←	No Course Articulated

<b>MATH 2200</b> - Introduction to Statistical Concepts and Methods (4.00)	←	<b>MATH 164</b> - Introduction to Probability and Statistics (4.00)
<b>MATH 1030</b> - College Algebra and Trigonometry, Dual Credit Program (3.00)	←	No Course Articulated
--- Or ---		

**MATH 1040** - Precalculus I and II Combined (6.00)

No Course Articulated

--- Or ---

**MATH 1050** - Precalculus I (4.00)

--- And ---

**MATH 1060** - Precalculus II (4.00)

No Course Articulated

## CONCENTRATION IN INFORMATION SECURITY

All courses in this section are required

**CMPS 2010** - Programming I: Programming Fundamentals (4.00)

No Course Articulated

**CMPS 2020** - Programming II: Data Structures and Algorithms (4.00)

No Course Articulated

**CMPS 2120** - Discrete Structures (4.00)

No Course Articulated

**CMPS 2240** - Computer Architecture I: Assembly Language  
Programming (4.00)

No Course Articulated

**MATH 2310** - Single Variable Calculus I for Engineers (4.00)

No Course Articulated

--- Or ---

**MATH 2510** - Single Variable Calculus I (4.00)

**MATH 190** - Analytic Geometry and Calculus I (5.00)

**MATH 2320** - Single Variable Calculus II for Engineers (4.00)

No Course Articulated

--- Or ---

**MATH 2520** - Single Variable Calculus II (4.00)

**MATH 191** - Analytic Geometry and Calculus II (4.00)
