

# Articulation Agreement by Major

Effective during the 2022-2023 Academic Year

To: University of California, Irvine  
2022-2023 General Catalog, Quarter

From: Pasadena City College  
2022-2023 General Catalog, Semester

## Computer Science, B.S.

### GENERAL INFORMATION

Admission to the Donald Bren School of Information and Computer Science is highly competitive. The most important selection criteria are completion of the required preparatory courses and academic performance. *This major does not participate in the TAG program.*

#### Required for admission:

**Students must have a cumulative GPA of 3.0 and grade of B or higher in all required courses below:**

- **One year of computer programming courses\* in a single object-language (Python, Java, or C++). Object-oriented programming language courses that do not directly articulate to I&C SCI 31-33 can be used to satisfy the admissions requirements. Introduction to computer science courses do not meet this requirement.**
- Two semesters/two quarters of approved first-year Calculus
- One additional approved transferable course for the major (an approved math or CS course - see below)

#### Additional Approved Courses:

- One course in advanced data structures
- One course in machine organization and assembly language (both topics must be covered)
- One course in software engineering
- One course in discrete mathematics
- One course in Boolean algebra
- One course in linear algebra

**\*NOTE:** Additional computer science courses beyond the two required are strongly recommended, particularly those that align with the major of interest. Our first year of object-oriented programming is taught in Python. C++ and Java are used extensively in the curriculum; therefore, transfer students should plan to learn it by studying on their own or by completing related programming courses prior to their first quarter at UCI.

Additional courses beyond those required for admission must be taken to fulfill the lower-division degree requirements, as many are prerequisites for upper-division courses. For some transfer students, this may mean that it will take longer than two years to complete their degree.

Students should have I&C SCI 31-33 credit first in order to move further into the program here at UCI.

In fulfillment of the requirements below, a single course may be used only once.

For information regarding the [AP and IB examination](#) credit policies refer to the UCI General Catalogue.

### MAJOR PREPARATION COURSES REQUIRED FOR TRANSFER

**I&C SCI 31** - Introduction to Programming (4.00)

--- And ---

**I&C SCI 32** - Programming with Software Libraries (4.00)

--- And ---

**I&C SCI 33** - Intermediate Programming (4.00)

- Please refer to additional important General Information section above

**CS 002** - Fundamentals of Computer Science I (4.00)

--- And ---

**CS 003B** - Fundamentals of Computer Science (JAVA) (4.00)

--- Or ---

**CS 002** - Fundamentals of Computer Science I (4.00)

--- And ---

**CS 003C** - Fundamentals of Computer Science (Python) (4.00)

**MATH 2A** - Single-Variable Calculus (4.00)

**MATH 005A** - Single Variable Calculus I (5.00)

--- Or ---

**MATH 005AH** - Honors Single Variable Calculus I (5.00)

--- Or ---

**MATH 006A** - Calculus for Life Sciences I (3.00)

**MATH 2B** - Single-Variable Calculus (4.00)

**MATH 005B** - Single Variable Calculus II (5.00)

--- Or ---

**MATH 005BH** - Honors Single Variable Calculus II (5.00)

One additional approved transferable course for the major (an approved Math, Science, or CSE course):

- Please refer to additional important General Information section above

No Course Articulated
